### BERKSHIRE FOCUS FUND (BFOCX)

This report is provided for the general information of the Berkshire Funds shareholders. It is not authorized for distribution unless preceded or accompanied by an effective Prospectus, which contains more complete information about the Berkshire Funds. Please read it carefully before you invest.

In recent years, returns have sustained significant gains and losses due to market volatility in the technology sector. Due to market volatility, current performance may be lower than the figures shown. Call **877.526.0707** or visit **www.berkshirefunds.com** for more current performance information. Past performance is no guarantee of future results and investment results and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. The returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Total return includes reinvestment of dividends and capital gain distributions.

The Dow Jones Industrial Average is a measurement of general market price movement for 30 widely-held stocks primarily listed on the New York Stock Exchange. The S&P 500® Index is a registered trademark of Standard & Poor's Corporation and is a market-weighted index of common stock prices for 500 large U.S. companies. The Nasdaq Composite Index is a capitalization-weighted index of over 5,000 common stocks listed on the Nasdaq Stock Market. Each index represents an unmanaged, broad-based basket of stocks. These indices are typically used as benchmarks for overall market performance.

Portfolio composition is subject to change at any time and references to specific securities, industries and sectors are not recommendations to purchase or sell any particular security.

The Fund's distributor is Arbor Court Capital, LLC.

This fund concentrates its investments in the technology industry. As a result, the fund is subject to greater risk than more diversified funds because of its concentration of investments in fewer companies and certain segments of a single industry.

### BERKSHIRE FOCUS FUND PERFORMANCE AND PORTFOLIO DISCUSSION 12/31/2023

Dear Fellow Shareholders,

For the twelve-month period ended December 31, 2023, the Berkshire Focus Fund outperformed its primary benchmark index. The Fund generated a total return of +50.20% while the S&P 500% Index—which we consider to be the Fund's primary benchmark index—produced a total return of +26.29% over the same period. For comparative purposes, the Dow Jones Industrial Average posted a return of +16.18% and the Nasdaq Composite Index generated a return of +44.64% for the year. A \$10,000 investment in our Fund over 10 years starting on December 31, 2013, grew to **\$24,713**. This was a **+9.47%** average annual compounded return. A \$10,000 invest-

ment in the S&P 500<sup>®</sup> over the same period grew to **\$31,149**. This was a **+12.03%** average annual compounded return.

We are pleased to report the Berkshire Focus Fund delivered a year of truly exceptional performance. While we met our goal of delivering superior returns to our shareholders, we also outperformed all of our equity market benchmarks. As a result, we hope you enjoyed the rewards for your patience as a long-term investor in the Fund. Even though we won the sprint in 2023, our goal will always remain the same – that we will continue to win the marathon. This is reflected in our long-term record of outperformance over the S&P 500<sup>®</sup> Index with a 17.01% average annual compounded return over the past 15 years. Looking ahead, we remain particularly excited about the opportunities in artificial intelligence (AI), which has driven our overweight allocation in software, semiconductors, and the cloud. We believe the potentially dramatic efficiency and productivity gains associated with generative AI across many industries will drive a significant acceleration of investment in AI software and hardware for many years to come.

In the third quarter, U.S. equity markets led by growth-oriented stocks, staged a strong rally that lasted into mid-July. Underpinning the advance were hopes that moderating inflation might allow the Federal Reserve to slow or end its campaign of interest rate hikes. Returns were extremely narrowed in breadth however, driven largely by a handful of mega-cap growth stocks (the so-called "Magnificent Seven"). A run-up in bond yields gained momentum at the end of July after Fed policymakers indicated that an extended period of higher interest rates might be needed to bring inflation under control. Also adding to investor angst was the United Automobile Workers (UAW) strike, a potential shutdown of the U.S. government, and slowing growth in China. Stocks underwent a reversal of sentiment, igniting a broad-based sell-off over the rest of the quarter as the 10-year U.S. Treasury yield surged to a 16-year high of 4.80%.

The start of the fourth quarter was rough for stocks, as U.S. equity markets completed a 10% correction in late October. A deepening sell-off in the bond market drove the yield on the 10year U.S. Treasury to 5.01%, marking a milestone that rattled stocks and pulled the major indexes off of their summer highs. Following the third quarter slump, stocks roared back to life during the final two months of the year. The surge was sparked by a sharp decline in U.S. Treasury yields to 3.80% on indications that inflation was in a sustained retreat. The Consumer Price Index (CPI) was halved in 2023, dropping from 6.5% at the start of the year to 3.4% in December. U.S. stock markets extended their upward climb into the end of the quarter on news of the Federal Reserve's December pivot from a hawkish stance to a more accommodative mood. The surprisingly dovish signal was one of the most notable events of the year as Fed Chairman Jerome Powell indicated that not only were the rate hikes over, but the Federal Open Market Committee had planned to cut rates by three times in 2024. At year-end, the Dow Jones Industrial Average became the first major U.S. stock index to set a new all-time high.

Looking at the portfolio, our investments in NVIDIA (NVDA), DraftKings (DKNG), MercadoLibre (MELI), MicroStrategy (MSTR), Shopify (SHOP), Uber Technologies (UBER) and Tesla (TSLA) were all contributors to the Fund's performance during the year. However, some of our investments detracted from the Fund's performance—these included Bill.com (BILL) and Celsius (CELH). New significant additions to the portfolio in the second half of the year were Amazon.com (AMZN), Affirm (AFRM), Coinbase Global (COIN), DoorDash (DASH) and Robinhood Markets (HOOD).

## NOTES TO FINANCIAL STATEMENTS

#### 1. Organization

The Berkshire Focus Fund (the "Fund") is a non-diversified series of The Berkshire Funds (the "Trust"), an open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Trust was organized as a Delaware business trust on November 25, 1996. The Fund commenced operations on July 1, 1997. The Fund's investment objective is to seek long-term growth of capital primarily through investments in equity securities.

#### 2. Significant Accounting Policies

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 *Financial Services – Investment Companies*. The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

The following is a summary of the Trust's significant accounting policies:

*Cash* — The Fund maintains cash at its custodian which, at times, may exceed United States federally insured limits.

Securities valuation — The Fund's portfolio securities generally are valued by using market quotations but may be valued on the basis of prices furnished by a pricing service when the Valuation Committee believes such prices accurately reflect the fair market value of such securities. Securities that are traded on any stock exchange or on the NASDAQ over-the-counter market are generally valued by the pricing service at the last quoted sale price. Lacking a last sale price, an equity security is generally valued by the pricing service at its last bid price. Generally, if the security is traded in an active market and is valued at its last sales price, the security is categorized as a Level 1 security (described below), and if an equity security is valued by the pricing service at its last bid, it is generally categorized as a Level 2 security. When market quotations are not readily available, when the Valuation Committee determines that the market quotation or the price provided by the pricing service does not accurately reflect the current market value, or when restricted or illiquid securities are being valued, such securities are valued in good faith by the Valuation Committee, in accordance with the Trust's Valuation and Fair Value Pricing Policies and Procedures and are categorized as level 2 or level 3, when appropriate. The Trust's Valuation Committee shall consist of the Trust's independent trustees, and the Fund portfolio manager as a non-voting member.

In accordance with the Trust's Valuation and Fair Value Pricing Policies and Procedures which were established in accordance with Rule 2a-5 of the 1940 Act, it is incumbent upon the Valuation Committee to consider all appropriate factors relevant to the value of securities for which market quotations are not readily available. No single standard for determining fair value can be established, since fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of an issue of securities being valued by the Valuation Committee would appear to be the amount that the owner might reasonably expect to receive for them upon their current sale. Methods that are in accordance with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these or other methods.

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023

The Trust has adopted accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion of changes in valuation techniques and related inputs during the period. These standards define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy is organized into three levels based upon the assumptions (referred to as "inputs") used in pricing the asset or liability. These standards state that "observable inputs" reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from independent sources and "unobservable inputs" reflect an entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices in active markets for identical securities that the Fund has the ability to access.

Level 2 – Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Significant unobservable inputs (including the Fund's Valuation Committee's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used to value the Fund's investments as of December 31, 2023:

### NOTES TO FINANCIAL STATEMENTS December 31, 2023

*Investment income* — Dividend income is recorded on the ex-dividend date. Interest income, if any, is accrued as earned.

*Distributions to shareholders* — Distributions to shareholders arising from net investment income and net realized capital gains, if any, are distributed at least once each year. Distributions to shareholders are recorded on the ex-dividend date. The Fund may utilize earnings and profits distributed to shareholders on redemptions of shares as part of the dividends paid deduction. Dividends from net investment income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP.

Security transactions — Security transactions are accounted for on the trade date for financial reporting purposes. Securities sold are determined on a specific identification basis.

*Estimates* — The financial statements are prepared in accordance with GAAP, which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

*Federal income tax* — The Fund intends to continue to comply with the requirements of Subchapter M of the Internal Revenue Code (the "Code") necessary to qualify as a regulated investment company. As provided therein, in any fiscal year in which the Fund so qualifies and distributes at least 90% of its taxable net income, the Fund (but not the shareholders) will be relieved of federal income tax on the income distributed. Accordingly, no provision for income taxes has been made.

As of and during the year ended December 31, 2023, the Fund did not have a liability for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as other expense on the statement of operations. During the year, the Fund did not incur any tax-related interest or penalties.

In order to avoid imposition of the excise tax applicable to regulated investment companies, it is also the Fund's intention to declare as dividends in each calendar year at least 98% of its net investment income and 98.2% of its net realized capital gains plus undistributed amounts from prior years.

*Other* — The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset value per share of the Fund. Effective September 30, 2019, the Fund elected a tax year-end of September 30. For the tax year ended September 30, 2023 and the fiscal year December 31, 2023, the following permanent adjustment was recorded.

## NOTES TO FINANCIAL STATEMENTS

The adjustment was primarily related to the reclassification of net operating loss:

Paid-In Capital	\$ (6,415,762)
Total Distributable Earnings	\$ 6,415,762

### 3. Investment Transactions

Purchases and sales of investment securities (excluding short-term instruments) for the fiscal year ended December 31, 2023, were \$3,516,294,495 and \$3,572,500,918 respectively. There were no purchases or sales of U.S. Government securities for the Fund.

### 4. Tax Information

For federal income tax purposes, as of December 31, 2023, the cost of investments, and gross appreciation/depreciation was as follows:

Federal Income Tax Cost	\$ 243,963,657
Gross Unrealized Appreciation	\$ 24,835,747
Gross Unrealized Depreciation	(47,480,321)
Net Unrealized Depreciation	\$ (22,644,574)

The cost basis of investments for tax and financial reporting purposes differed primarily due to wash sales.

There were no distributions paid during the fiscal years ended December 31, 2023 and 2022.

As of the tax year ended September 30, 2023, the components of distributable earnings on a tax basis were as follows:

Accumulated Capital and Other Losses	\$ (311,346,315)
Net Unrealized Depreciation	(41,161,942)
Total Accumulated Deficit	\$ (352,508,257)

As of tax year ended September 30, 2023, accumulated capital and other losses included the following:

Deferred Interest Expense	\$ 58,324
Deferred Late Year Ordinary Losses	\$ 3,215,331
Short-Term Capital Loss Carryforward	\$ 308,072,660

Under current tax law, late year ordinary losses incurred after December 31 of a fund's tax year end may be deferred and treated as occurring on the first business day of the following tax year for tax purposes. The capital loss carryforward has no expiration.

5. Related Party Transactions, Investment Advisory and Administrative Fees

Certain Officers and Trustees of the Trust are also Officers and Directors of Berkshire Capital Holdings, Inc. ("Berkshire Capital"). The non-interested Trustees of the Fund were paid \$82,500 in Trustee fees and expenses directly by Berkshire Capital during the fiscal year ended December 31, 2023.

### NOTES TO FINANCIAL STATEMENTS December 31, 2023

The Fund has an Investment Advisory Agreement (the "Advisory Agreement") and a separate Administration Agreement with Berkshire Capital. Under the Advisory Agreement, Berkshire Capital will determine what securities will be purchased, retained or sold by the Fund on the basis of a continuous review of the portfolio. For the services it provides under the Advisory Agreement, Berkshire Capital receives a fee accrued each calendar day (including weekends and holidays) at a rate of 1.50% per annum of the daily net assets of the Fund.

Under the Administration Agreement, Berkshire Capital renders all administrative and supervisory services of the Fund, as well as facilities furnished and expenses assumed except for interest and taxes. For these services, Berkshire Capital receives a fee at the annual rate of 0.50% of the Fund's average daily net assets up to \$50 million, 0.45% of average net assets from \$50 million to \$200 million, 0.40% of average net assets from \$200 million to \$500 million, 0.35% of average net assets from \$500 million to \$100 million and 0.30% of average net assets in excess of \$1 billion. Such fee is computed as a percentage of the Fund's daily net assets and is accrued each calendar day (including weekends and holidays). For the fiscal year ended December 31, 2023, Berkshire Capital was paid an investment advisory fee of \$3,251,277 and an administration fee of \$991,268 from the Fund. The amount due to Berkshire Capital for these fees at December 31, 2023, totaled \$367,853.

### 6. Redemption Fee

The Fund may impose a redemption fee of 2.00% on shares held for 90 days or less. For the fiscal year ended December 31, 2023, proceeds from redemption fees were \$133,377.

#### 7. Beneficial Ownership

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the Fund, under Section 2(a)(9) of the 1940 Act. At December 31, 2023, National Financial Services Corp. and Charles Schwab & Co., Inc. beneficially owned, in aggregate, 54.53% and 25.94%, respectively, of the Fund.

### 8. Market Developments, Events, and Risks

Unexpected local, regional or global events, such as war; acts of terrorism; financial, political or social disruptions; natural, environmental or man-made disasters; the spread of infectious illnesses or other public health issues; and recessions and depressions could have a significant impact on the Fund and its investments and may impair market liquidity. Such events can cause investor fear, which can adversely affect the economies of nations, regions and the market in general, in ways that cannot necessarily be foreseen.

#### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023

### 9. Revolving Credit Agreement

The Trust entered into a Revolving Credit Agreement (the "Loan Agreement") between the Trust and its custodian, The Huntington National Bank, N.A. The Fund may not borrow money or purchase securities on margin except for temporary or emergency (not leveraging) purposes, including the meeting of redemption requests that might otherwise require the untimely disposition of securities. The maximum amount that the Fund is permitted to borrow is the lesser of: (i) \$3,000,000 or (ii) 10% of the Fund's daily market value and is secured by the securities in the Fund. The maximum interest rate of such loans is set at a rate per annum equal to the Term Secured Overnight Financing Rate subject to a .25% floor, plus 1.85% per annum, subject to an Annual Fee and an Unused Fee. The Annual Fee for the Loan Agreement is equal to 1/8 of one percent (1.00%) of the Loan Amount of \$3,000,000 and the Unused Fee is equal to 1/8 of one percent (1.00%) of the excess of the Loan Amount over the outstanding principal balance of the loan. During the year ended December 31, 2023, the Fund had an average loan balance of \$251,932 and paid an average interest rate of 6.86%. Additionally, the maximum borrowing during the period was \$3,000,000, which occurred on August 25, 2023. As of December 31, 2023, there was an outstanding loan balance of \$839,733 and the interest rate was 7.21%. No compensating balances are required. The loan matures on August 13, 2024, per agreement.

### 10. Concentration of Sector Risk

If a Fund has significant investments in the securities of issuers in industries within a particular sector, any development affecting that sector will have a greater impact on the value of the net assets of the Fund than would be the case if the Fund did not have significant investments in that sector. In addition, this may increase the risk of loss of an investment in the Fund and increase the volatility of the Fund's NAV per share. From time to time, circumstances may affect a particular sector and the companies within such sector. For instance, economic or market factors, regulation or deregulation, and technological or other developments may negatively impact all companies in a particular sector and therefore the value of a Fund's portfolio will be adversely affected. As of December 31, 2023, the Fund had 27.00% of the value of its net assets invested in stocks within the Business Software and Services sector.

### 11. Subsequent Events

In preparing these financial statements, management has performed an evaluation of subsequent events after December 31, 2023, through the date these financial statements were issued and determined that there were no significant subsequent events that would require adjustment to or additional disclosure in the financial statements.

### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

### TO THE SHAREHOLDERS OF BERKSHIRE FOCUS FUND AND BOARD OF TRUSTEES OF THE BERKSHIRE FUNDS

### **Opinion on the Financial Statements**

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of The Berkshire Funds comprising Berkshire Focus Fund (the "Fund") as of December 31, 2023, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the related notes, and the financial highlights for each of the five years in the period then ended (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2023, the results of its operations for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, and the financial highlights for each of the five years in the period then ended, and the financial highlights for each of the five years of the five years in the period then ended, and the financial highlights for each of the five years of the five years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

#### Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2023, by correspondence with the custodian and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Fund's auditor since 2004.

### **EXPENSE EXAMPLE**

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, and (2) ongoing costs, including advisory fees, administrative fees and interest expense. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on investment of \$1,000 invested in the Fund on July 1, 2023 and held through December 31, 2023.

#### Actual Expenses

The first line of the table on the following page provides information about actual account values and actual expenses. Although the Fund charges no sales load or transaction fees, you will be assessed fees for outgoing wire transfers, returned checks and stop payment orders at prevailing rates charged by Mutual Shareholder Services, LLC, the Fund's transfer agent. If you request that a redemption be made by wire transfer, currently a \$20.00 fee is charged by the Fund's transfer agent. IRA accounts will be charged an \$8.00 annual maintenance fee. If shares are redeemed within 90 days of purchase from the Fund, the shares are subject to a 2% redemption fee. To the extent the Fund invests in shares of other investment companies as part of its investment strategy, you will indirectly bear your proportionate share of any fees and expenses charged by the underlying funds in which the Fund invests in addition to the expenses of the Fund. Actual expenses of the underlying funds are expected to vary among the various underlying funds. These expenses are not included in the example. The example includes advisory fees, administrative fees and other Fund expenses. However, the example does not include portfolio trading commissions and related expenses and other extraordinary expenses as determined under generally accepted accounting principles. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by 1,000 (for example, an 8,600 account value divided by 1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

### Hypothetical Example for Comparison Purposes

The second line of the table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5%

hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as redemption fees or the charges by Mutual Shareholder Services, LLC as described above, or the expenses of the underlying funds. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

\*Expenses are equal to the Fund's annualized expense ratio of 1.97%, multiplied by the average account value over the period, multiplied by 184/365 to reflect the one-half year period.

### **OTHER INFORMATION**

### **Proxy Voting Guidelines**

Berkshire Capital Holdings, Inc., the Fund's Adviser, is responsible for exercising the voting rights associated with the securities held by the Fund. A description of the policies and procedures used by the Adviser in fulfilling this responsibility and Form N-PX, which is a record of the Fund's proxy votes for the most recent twelve month period ended June 30, are available without charge, upon request, by calling toll free 1-877-526-0707. They are also available on the Securities and Exchange Commission's ("SEC") website at www.sec.gov.

### **Quarterly Filing of Portfolio Holdings**

The Fund publicly files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-PORT. The Fund's Forms N-PORT are available on the SEC's website at www.sec.gov. Copies of the Fund's Forms N-PORT are also available, without charge, by calling the Fund toll free 1-877-526-0707.

### Liquidity Risk Management Program

During the fiscal year ended December 31, 2023, the Board reviewed the Fund's liquidity risk management program, adopted pursuant to Rule 22e-4 under the Investment Company Act. The program is overseen by the Adviser, who has delegated certain responsibilities for managing the program to a liquidity program administrator (the "LPA"). The LPA reported that it had assessed, managed and reviewed the program for the Fund taking into consideration several factors including the liquidity of the Fund's portfolio investments and the market, trading or investment specific considerations that may reasonably affect a security's classification as a liquid investment. The LPA certified that the program was adequate, effectively implemented and needed no changes at that time.

### APPROVAL OF INVESTMENT ADVISORY AGREEMENT

The Board of Trustees (the "Trustees" or the "Board"), including a majority of the Trustees who are not "interested persons" of the Trust (the "Independent Trustees"), approved the continuation of the Investment Advisory Agreement (the "Advisory Agreement") with Berkshire Capital Holdings, Inc. (the "Adviser") at a meeting held on December 16, 2023.

The Trustees were assisted by experienced independent legal counsel throughout the contract review process. The Independent Trustees discussed the proposed continuance in executive session with such counsel at which time no representatives of the Adviser were present. The Independent Trustees relied upon the advice of independent legal counsel and their own business judgment in determining the material factors to be considered in evaluating the Advisory Agreement and the weight to be given to each such factor. Among other factors, the Independent Trustees considered the Fund's performance; the nature, extent and quality of the services provided; the costs of the services provided; any profits realized by the Adviser; the extent to which economies of scale will be realized as the Fund grows; and whether fees reflect those economies of scale. The conclusions reached by the Independent Trustees were based on a comprehensive evaluation of all of the information provided and were not the result of any one factor. Moreover, each Independent Trustee may have afforded different weight to the various factors in reaching his conclusions with respect to the Advisory Agreement.

Prior to the executive session, a representative of the Adviser referred the Independent Trustees to the materials that had been provided to them for purposes of their consideration of the Advisory Agreement. He summarized the services provided by the Adviser to the Fund and he reported that there were no material changes in the structure or relationships of the Adviser. The representative next reviewed with the Trustees the average total returns of the Fund through September 30, 2023 (year-to-date, 1-year, 3-years, 5-years, 10-years and 15-years), and the expense ratios and management fees of the Fund in comparison with funds in the Morningstar Technology Fund category (the "Category"), and a group of no-load Morningstar Technology Funds with net assets ranging from \$40 million to \$600 million (the "Peer Group"). He also reviewed comparisons of the Fund's performance with its benchmark indices, as well as the Category and Peer Group. He noted that he had provided the Adviser's balance sheet and income statement to the Independent Trustees prior to the meeting. He then led a discussion regarding the Adviser's profitability, indicating a profit margin at the time of analysis.

### Investment Performance

The Independent Trustees considered the short-term and long-term investment performance of the Fund over various periods of time ended September 30, 2023, as compared to its benchmark indices and the Category and Peer Group. The Independent Trustees noted the Fund had outperformed its primary benchmark index, the S&P 500<sup>®</sup>, over the year-to-date and 15-year periods, remarking in particular that the year-to-date performance of the Fund relevant to the primary benchmark index had been outstanding. The Fund underperformed its benchmark indices over the 1-year, 3-year, 5-year, and 10-year periods. The data also showed the Fund outperformed its Category and Peer Group averages for the year-to-date period; and underperformed its Category and Peer Group averages for the 3-year, 5-year and 10-year periods.

(UNAUDITED)

The Trustees determined the Adviser was delivering acceptable performance results consistent with the long-term investment strategies being pursued by the Fund. Based on this review, the Independent Trustees concluded that the performance of the Adviser was acceptable for the purposes of approving the Advisory Agreement.

### Nature, Extent and Quality of Services Provided by the Investment Adviser

The Trustees then reviewed the nature, quality and scope of current and anticipated services provided by the Adviser under the Advisory Agreement. The Trustees discussed the Adviser's experience and the capabilities of the Adviser's portfolio manager. For example, the Trustees reviewed and discussed the Adviser's Form ADV and internal compliance policies, as well as the experience of the Adviser as investment adviser. In addition to the above considerations, the Trustees reviewed and considered a description of the Adviser's portfolio and brokerage transactions, noting that the Adviser received no soft dollars. Based on this review, the Trustees concluded that the range and quality of services to be provided by the Adviser to the Fund were appropriate and continued to support its original selection of the Adviser.

### **Costs of Services Provided**

The Trustees next reviewed the terms of the Advisory Agreement and the Administration Agreement, concluding after discussion with independent counsel that it was appropriate to consider them together, given that the Adviser was performing all services under the agreements and that the Administration Agreement called for the Adviser to pay substantially all of the Fund's expenses (except for the investment advisory fee, interest and taxes). The Trustees concluded that it would be putting form over substance to treat the two agreements separately. The representative of the Adviser then reviewed the advisory fee and expense ratio for the Fund and compared the fee and expense ratio with the advisory fees and expense ratios of the Fund's Category and Peer Group. He noted that the expense ratio was more meaningful than the actual advisory fee ratio because the agreements have a "universal fee" structure where the Adviser pays substantially all of the expenses of the Fund and is compensated with a higher fee. The representative further noted that most of the funds in the comparative data do not share this structure.

After discussion, the Trustees agreed that, instead of comparing actual advisory fees, it was more appropriate to compare net expense ratios, due to the universal fee structure. The Trustees further noted that some of the funds in the comparative data were one class of a fund that had many classes and, thus, benefit from economies of scale provided by the other classes. The Trustees noted that the Fund's net expense ratio was at the top of the Peer Group and near the top of the Category, but within the range of the Category.

At this point, the representative added that the work involved in running the Fund was significantly higher than for most other funds because of the extreme volatility of high-growth and technology stocks. He stated that he actively managed the Fund's portfolio every day, and used a time-intensive process to follow news regarding each of the stocks in the portfolio and stocks that he considered for the portfolio. He estimated that a net positive performance of the Fund was generated by his doing trading "on the edges," which he believed allowed the Fund to take advantage of short-term movements in particular stock prices. The Trustees recognized the benefit of the Adviser's active management of the Fund and, based on their review, concluded that the cost of services provided by the Adviser was appropriate.

### Profitability of the Adviser

The Trustees next considered an analysis of the profitability of the Adviser from the fees payable under the Advisory Agreement and the Administration Agreement. In addition, the Trustees reviewed the financial condition of the Investment Adviser for 2023, as well as information from a Management Practice, Inc. ("MPI") 2019 profitability analysis of 16 publicly-reported asset managers. A representative of the Adviser reviewed the profitability analysis of the Adviser with the Trustees, noting that as no rent expenses and no payroll expenses were deducted through September 30, 2023, the Adviser's profitability was significantly overstated. The Trustees remarked that the Adviser's level of profitability was above the median pre-tax operating margins reported in the MPI analysis before considering certain expenses. They also note that the Adviser's expected payroll expense for 2023 the Adviser's profitability was within the acceptable range.

### **Economies of Scale**

The Trustees next considered whether the Fund has appropriately benefitted from any economies of scale, and whether there is potential for realization of any further economies of scale. The representative of the Adviser reminded the Trustees that the Adviser's fees under the Administration Agreement contain breakpoints and noted that the Fund was already receiving the benefit of the fee reduction at the third break point. The Trustees acknowledged that the Adviser was entitled to reasonable profits and indicated that the existing breakpoints are, and should continue to pass on the benefits of economies of scale to shareholders.

### Conclusion

At this point, the Trustees indicated that it was their consensus that the information presented and the discussion of the information were adequate for making a determination regarding the renewal of the Advisory Agreement. As to the nature, extent and quality of services provided by the Adviser, the Trustees expressed their common opinion that the Adviser provides excellent services to the Fund and that the extent of the services is consistent with the Board's expectations. They recognized the near-term challenges of the stock markets, with high-growth and technology stocks in particular, and complimented the Adviser on the Fund's relative outperformance year-to-date and over the last fifteen years. The Trustees then concluded that, based on their review of the fees and overall expense comparisons, as well as all information relating to the profitability of the Adviser, that the advisory and administration fees were reasonable and that the arrangements were not generating excessive profits to the Adviser. The Trustees further concluded that the existing fee breakpoints would make the Adviser's fees reflective of economies of scale.

After further discussion, and based upon all of the above-mentioned factors and their related conclusions, with no single factor or conclusion being determinative and with each Trustee not necessarily attributing the same weight to each factor, the Trustees unanimously determined that the continuation of the Advisory Agreement for an additional year was in the best interests of the Fund and its shareholders.
